

MATLENG

Energy Solutions

COMPANY PROFILE

AN OVERVIEW

Matleng strives to solve clients' energy related challenges through the effective implementation of new and/or existing technologies. We believe that finding new energy solutions is the key to unlocking development on the African continent.

Our field expertise lies in:

- Liquid fuels and gas infrastructure
- Renewable energy solutions
- Substations
- Power lines
- Cable networks
- Commercial and housing projects
- Commercial building services
- Programme and Project management

Matleng is a South African black woman owned company led by Nelisiwe Magubane, in association with Corrie van der Wath. Nelisiwe and Corrie are both registered electrical engineering professionals and between them boast more than 50 years' experience in the energy industry.

By sharing knowledge and expertise, Matleng is committed to adding value to clients' commercial success by providing innovative energy and business solutions. This is accomplished through strategic alliances with influential role players in the industry.

Matleng builds and maintains its long-term relationships by being loyal to its business network and dedicated to providing excellent service, underpinned by an ongoing commitment to unearthing energy opportunities on the continent.

As leaders in the field of engineering solutions, Matleng also has extensive experience in the packaging and programme management of large-scale energy projects aimed at overcoming present day challenges in a fast-changing environment.

OUR VISION

Our vision is to play a pivotal role in the development and implementation of new energy solutions in Africa, lighting the way for more businesses on their journey to success.

OUR MISSION

Our mission is to provide cutting-edge solutions for your energy challenges in partnership with our highly skilled alliance groups.

By using our extensive experience and tapping into the knowledge base of our strategic partners, Matleng is able to efficiently and cost-effectively implement energy solutions that meet the needs of our valued clients.

OUR VALUES

Our team shares a common value system to ensure continued excellence and success.

We commit ourselves to:

- Delivering quality workmanship
- Working SMART
- Keeping to time commitments and budgets
- Empowering all players
- Practising integrity and transparency in everything we do
- Achieving success as a team

OUR WINNING CULTURE

We support our vision by taking ownership of what we create.

OUR OFFERING

We currently offer the following core services:

- Strategic Advisory Services
- Programme and Project Management
- Engineering Planning and Designs
- Training and Development Services
- Funding Facilitation

The core services are rendered in the following areas:

- Renewable Energy, Energy Efficiency and Demand Side Management (EEDSM)
- Electrification (overhead and underground)
- Reticulation (overhead and underground)
- Distribution (overhead and underground)
- Transmission

All of the mentioned services are offered in terms of greenfields, brownfields, refurbishment and maintenance.

We have an in-depth knowledge of all the facets of our business which includes:

- The Political, Social, Economic Factors
- Energy Environments
- Project Finance
- Design and Implementation of Engineering
- Infrastructure
